

To Whom It May Concern

HSWT Aspartame

as manufactured and supplied by

HSWT France SAS, France

is a highly purified, high intensity Non-Nutritive artificial dipeptide sweetener, approved for human consumption. HSWT France SAS production is ISO 9001, 14001, 45001 and BRC certified. The Good manufacturing practice on basis of the ISO management system rules are applied. The product produced, fully complies with the purity criteria of the Commission Regulations (EU) No. 231/2012 (formerly 2008/60/EC; 95/31/EC) and the European Pharmacopoeia & U.S. Pharmacopeia/National Formulary.

The HACCP concept of the operation includes foreign matter control. Before crystallizing a 10µm filter holds back particles. Depending on the product granulation, sieves in the range from approx. 150µm to 850µm are used. Also magnets (11000 Gauss) and metal detectors (3.0 mm ferrous, 4.0 mm non-ferrous, 4.0 mm stainless steel daily tested) are in use.
